

Don Schwartz

Muskie Angler, Tackle Maker
Producer of Muskie Intervention

Muskie Intervention takes muskie fishing to a whole new level with Figure 8, live in-boat and intense underwater footage. Watch awe-inspiring live muskie strikes caught with Topwaters, Bucktails and Jerk baits. You'll soon discover how easily muskie fishing gets in your blood. Once you try it, you'll understand the need for a Muskie Intervention.

"Growing up in Wilton, in southern Wisconsin, muskie fishing was something we only heard about. We were consumed with dreams of catching the big one. The muskie news out of Hayward, WI just added to our obsession."

—Don Schwartz

After graduating from high school, Don headed north to experience muskie fishing first hand. The rest, as they say, is history.

Don has journeyed from a muskie-hungry fisherman to a top-notch bait designer and exceptional muskie angler. Acclaimed for his rare underwater footage, Don recorded the first-ever live muskie strike on a Nature Vision Aqua Vu camera. He's also been featured in some of the industry's top publications including, Muskie Hunter, Outdoor Canada and In-Fisherman.

Outstanding underwater footage and muskie strikes—
Very Entertaining!
Dick Pearson

MUSKIE INTERVENTION
is an absolute must-see for any angler!
